

TREE DRIVE - MAY 2014

Dear Christian Family,

S.A.E.M. has been in the same location in Horizon City, Texas for 16 years now! Our campus covers four acres. Few things add beauty and value to property as do trees and as we look around our campus we seem to be...well, barren! We would like to give this campus, located in desert land, more life and beauty. Trees are the lungs of the world and we want to give this community some fresh air. We want our visitors to come to S.A.E.M. and feel that they have entered a small park. Our ministry brings life and we want our location to show life.

The Trustees and I had looked into the cost of a rock wall fence for the property; it is extremely costly. The idea of using trees as a fence became a possibility. At the same time that we beautify our campus, the trees that will be planted all around our property lines will serve as the desired fence.

We recently planted 3 tall trees at a cost of \$32.00 each. We want to continue doing that, but we need your help. You can help by sending the cost of one tree or as many as you desire. If you wish you can send any amount and we'll combine it to purchase as many trees as possible. You may even desire to purchase a tree as a memorial for a loved one. Please allow your congregation to take part in this. We want to have your ideas of what you would want to see planted, according to what would thrive in the desert.

S.A.E.M. belongs to all of us, but especially it belongs to the Lord. Let's make Him proud of our campus. Thank you.

Yours in Christ,

Bety
